## Descargue ubuntu server desde la pagina de ubuntu.

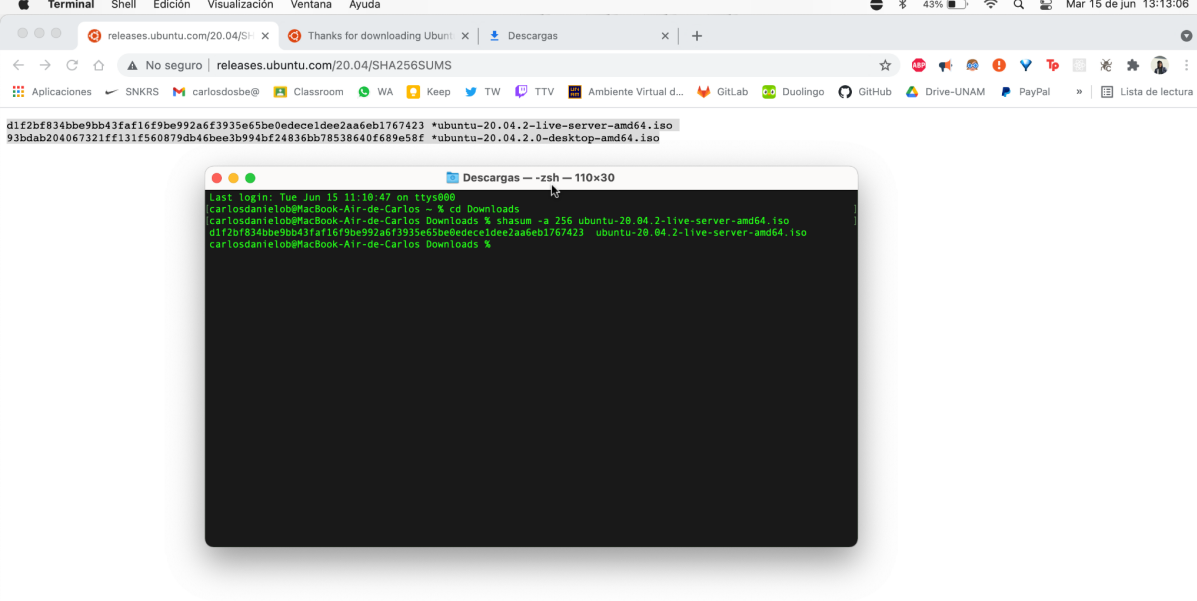

## Podemos ver el sha en la página de ubuntu.

<http://releases.ubuntu.com/20.04/SHA256SUMS>

<https://ubuntu.com/download/server>

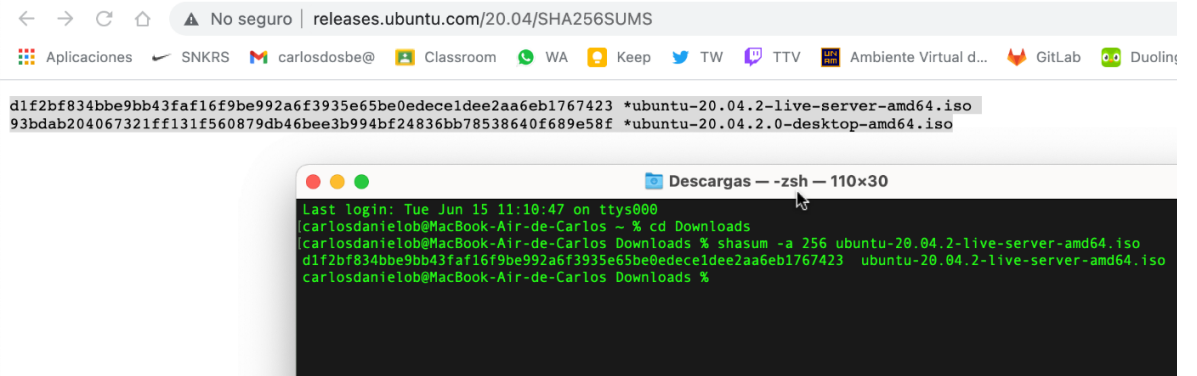

## Podemos ver que es la misma.

The screenshot shows a web browser window displaying the Ubuntu releases page. The address bar shows the URL `releases.ubuntu.com/20.04/SHA256SUMS`. The page content shows the SHA256SUMS file for Ubuntu 20.04.2, listing the live-server and desktop ISOs. A terminal window is overlaid on the page, showing the following commands and output:

```
